I am 6

I love thinking like a 6-year-old. Because everything is **WOW!** and **AMAZING!** It's where imagination knows no bounds.

I'm free to explore the world, whether it's making **DEATH-DEFYING** leaps between the armchair and the sofa over shark-infested carpet, becoming a **SUPERHERO** just by putting on a tea towel, and an empty toilet roll can a telescope or my rocketship.

And, holidays last **FOREVER!**

I'll never lose that sense of wonder, it's what makes good design – **GREAT.**

This is not a collection of project pictures either. It doesn't only concern the fruits of project designs but attaches more importance to the process of each design. From conception to process, the 22 designers share their experiences and understandings of design. This is not a picture book for appreciation. It involves
